

## Madhya Pradesh government starts e-registration of property all districts (Download PDF)

(July 4, 2015)

Madhya Pradesh government has initiated the facility of e-registration of property documents in all the districts of state. Through **Sampada software** will be done by the e-registration of property documentation in all the districts of state.

1. Earlier in December 2014, this initiative will help to enhance transparency and curb delays in property registration but MP state government had started this facility of e-registration of property documents in 5 districts on pilot basis.
2. The e-registration of property documentation launched five districts was Ujjain, Sehore, Tikamgarh, Balaghat and Anuppur. Under this facility, Madhya Pradesh's people can obtain e-stamp through internet banking or service provider.
3. They may also obtain information about market value of their property and registration fees to be payable on its purchase or sale through internet.
4. Besides, information about registry at any place can be obtained through search and a copy of it could be downloaded online.
