- Two important factors decide the good outcome of your answer:
 - Understanding of questions
 - Word limit
- Content of the answer is more important than its length.
- Skipped questions where you don't know the answer.
- Don't repeat the same point again and again. It wastes your time and fatigues your hand.
- Don't write unclear answers that remotely resemble to what is being asked in the question.
- Write in bullet points for both general studies and optional papers in Mains.
- Underline the keywords but don't use colored pens.
- Good if you draw diagrams especially for geography questions and GS3.
- Read question again and again while writing the answer to ensure you are not drifting away from what is being asked.
- Don't write complicated sentences.
