

Stage II: Indian National Junior Science Olympiad (INJSO)

INJSO test is conducted by HBCSE at approximate 15 centres in the country.

Eligibility: The eligibility criteria for participating in the INChO exam are:

1. Students who are chosen from Stage I examination (NSEJS)
2. Students who have been who have been exempted as described in the Enrollment page

These are the two ways by which students can apply for the test.

The tentative date and time of INJSO 2013 examination is in February.

The final date and timings are displayed in the first week of January on the website. It is also conveyed to students by post who have applied through post. Students appearing for INAO are eligible for TA/DA as per norms of the programme.

Syllabus: The syllabus for INJSO is almost same as that for NSEJS.

The syllabus is only a tentative curriculum guideline. The Questions and problems to be attempted in National Olympiads are usually non-conventional and of high difficulty level, comparable to International Olympiads.

Only 45 students will be chosen for OCSC in Junior Science. If there is tie at the last position, all students with the same marks at the last position will qualify for OCSC at the respective level. The student cannot get to this level by any other way.

Detailed and step-by-step solutions of MCQs and FREE video lessons for [all HBCSE olympiads](#), including many from past papers.
