

Competitive Exams: Geography MCQs (Practice-Test 107 of 118)

1. Following relief zones are the characteristics of ocean basins

- a. Continental slope
- b. Continenal shell
- c. Deep sea plain
- d. Oceanic trench

The correct sequence of their seaward appearance from the coasts is

- a. 2, 1, 4, 3
- b. 1, 2, 4, 3
- c. 2, 1, 3, 4
- d. 1, 2, 3, 4

2. When point symbols are inserted over nonquantitative shaded maps showing spatial distribution, the map is

- a. Chorochromatic
- b. Choroschematic
- c. Choropleth
- d. Chorographic compage

3. The normal lapse rate of temperature in the troposphere is 1 C. For every

- a. 146m
- b. 156m
- c. 166m
- d. 176m

4. The theory that events can only be explained as stages in a movement towards a pre-ordained end is known as
- Functionalism
 - Humanism
 - Phenomenology
 - Teleology
5. Which of the following pairs are correctly matched?
- Winter rain in North West India—Western disturbances
 - Summer rain in Malabar coast—Retreating monsoon
 - Summer rain in Bengal basin—Nor westerly
 - Winter rain in Tamil Nadu coast—NE Monsoon

Select the correct answer using the codes given below:

- 1, 2, 3 and 4
 - 1, 3 and 4
 - 3 and 4
 - 1 and 2
6. Which one of the following is the correct sequence in terms of descending values of Albedo?
- Forest, snow, water
 - Snow, forest, water
 - Water, snow, forest
 - Forest, water, snow
7. • **Assertion (A):** Corals are not found near the shores where rivers meet the sea.
- **Reason (R):** Corals do not thrive in regions where waters contain a lot of silt.
- Both A and R are true and R is the correct explanation of A
 - Both A and R are true but R is NOT the correct explanation of A
 - A is true but R is false

d. A is false but R is true

8. • **Assertion (A):** The temperature recorded at the surface of enclosed seas of high latitudes is lower than the temperature recorded at relatively greater depth.

• **Reason (R):** The surface of the ocean directly receives insulation and heat is transmitted to the lower part of the ocean through the process of conduction.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are the but R is NOT the correct explanation of A

c. A is true but R is false

d. A is false but R is true

9. • **Assertion (A):** The Tropical Cyclones are thermal in origin.

• **Reason (R):** The Tropical Cyclones develop due to Coriolis force.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are the but R is NOT the correct explanation of A

c. A is true but R is false

d. A is false but R is true

10. • **Assertion (A):** Human Geography is the synthetic study of the relationship between human societies and the Earth's surface.

• **Reason (R):** It includes all those parts of

Geography which are not solely concerned either with the physical environment or Cartography.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are the but R is NOT the correct explanation of A

c. A is true but R is false

d. A is false but R is true

11. • **Assertion (A):** The Homo sapiens are generally divided into Caucasoid, Mongoloid, Negroid and Australoid races.

• **Reason (R):** Such a classification leads to racism.

- a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are the but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
12. • **Assertion (A):** Freight rates decrease with increasing distance in the case of water transport.
- **Reason (R):** Terminal changes are reduced.
- a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are the but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
13. • **Assertion (A):** Humanistic Geography gives the central and active role to human awareness and human agency.
- **Reason (R):** Humanistic approach to developed as a reaction of positivism.
- a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are the but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
14. • **Assertion (A):** The origin of Himalayas is due to the collision of Indian Subcontinent with European landmass.
- **Reason (R):** The convergence of crystallites is often associated with mountain building.
- a. Both A and R are true and R is the correct explanation of A
 - b. Both A and R are the but R is NOT the correct explanation of A
 - c. A is true but R is false
 - d. A is false but R is true
