

## Competitive Exams: Geography MCQs (Practice\_Test 63 of 118)

Get unlimited access to the best preparation resource for DU : **fully solved questions with step-by-step explanation**- practice your way to success.

1. • **Assertion (A):** Areas of dense population in Asia lie between 10 and 40 North latitudes.
  - **Reason (R):** These areas have monsoon climate.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true
  
2. • **Assertion (A):** The atmosphere is said to be conditionally unstable when the lapse rate is between the dry adiabatic lapse rate and the wet adiabatic lapse rate.
  - **Reason (R):** The wet adiabatic lapse rate is always greater than the dry adiabatic lapse rate.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true
  
3. • **Assertion (A):** The population of the world has experienced an unprecedented growth during in 20th century.
  - **Reason (R):** Death rate fell significantly during the 20th century due to development of health services.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true
  
4. • **Assertion (A):** Japan is one of the leading industrial countries of the world.

- **Reason (R):** It has a large mineral resource base.
  - a. Both A and R are true and R is the correct explanation of A
  - b. Both A and R are true but R is not a correct explanation of A
  - c. A is true but R is false
  - d. A is false but R is true
  
- 5. • **Assertion (A):** Plantation agriculture is highly developed in South-east Asia.
  - **Reason (R):** South-east Asia remained under the European colonial rule for a long time.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true
  
- 6. • **Assertion (A):** Assam grows maximum tea in India.
  - **Reason (R):** A lot of cheap tribal labour is available.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true
  
- 7. • **Assertion (A):** Areas along the equator record the highest temperature through out the year.
  - **Reason (R):** On the equator, days and nights are equal for the largest part of the year.
    - a. Both A and R are true and R is the correct explanation of A
    - b. Both A and R are true but R is not a correct explanation of A
    - c. A is true but R is false
    - d. A is false but R is true

8. • **Assertion (A):** Thunderstorm activity in India is characteristic of the pre-and post monsoon periods.
- **Reason (R):** These are of the periods of transition between the seasonal circulations.
- a. Both A and R are true and R is the correct explanation of A
  - b. Both A and R are true but R is not a correct explanation of A
  - c. A is true but R is false
  - d. A is false but R is true
9. • **Assertion (A):** Cotton cultivation in Egypt is largely concentrated in the upper Nile valley.
- **Reason (R):** Cotton cultivation requires fertile clayey soil, abundant sunshine, frost-free weather and cheap labour.
- a. Both A and R are true and R is the correct explanation of A
  - b. Both A and R are true but R is not a correct explanation of A
  - c. A is true but R is false
  - d. A is false but R is true
10. • **Assertion (A):** The Great Dividing Range of Australia is an example of a block mountain.
- **Reason (R):** It was uplifted by the Alpien earth movements.
- a. Both A and R are true and R is the correct explanation of A
  - b. Both A and R are true but R is not a correct explanation of A
  - c. A is true but R is false
  - d. A is false but R is true
11. • **Assertion (A):** About 80% of Canadian manufacturing is concentrated in South Ontario and St. Lawrence lowland region.
- **Reason (R):** There are abundant deposits of coal in the South Ontario and St. Lawrence lowland region.
- a. Both A and R are true and R is the correct explanation of A
  - b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

12. • **Assertion (A):** The Mediterranean regions of the Northern Hemisphere specialize in horticulture.

• **Reason (R):** The climatic conditions in the Mediterranean regions are favourable.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

13. • **Assertion (A):** India has a tropical monsoon climate.

• **Reason (R):** India is located within tropical latitudes.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

14. • **Assertion (A):** The eastern coast of India is affected by tropical cyclones more than the western coast.

• **Reason (R):** Tropical cyclones originate only in the Bay of Bengal.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

15. • **Assertion (A):** Equatorial region is called 'the region of debilitation'

• **Reason (R):** The Equatorial region has uniformly unfavorable climatic conditions.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

16. • **Assertion (A):** The Regur soils of the Deccan Plateau are black in colour.

• **Reason (R):** They contain a lot of humus.

a. Both A and R are true and R is the correct explanation of A

b. Both A and R are true but R is not a correct explanation of A

c. A is true but R is false

d. A is false but R is true

17. The molten igneous material is called

a. Mantle

b. Magma

c. Sial

d. Sima
