National Institute of Technology, Srinagar

Glide to success with Doorsteptutor material for UGC : Get **detailed illustrated notes covering entire syllabus**: point-by-point for high retention.

Initially established as a Regional Engineering College in 1960 with affiliation to the University of Kashmir, The National Institute of Technology, Srinagar today has become one of the renowned and premier institutes of engineering and technology in Northern India. It has now been granted the status of a Deemed University recently in August, 2003, pertaining to the provisions in the University Grants Commission (UGC) Act and hence got its new name.

The Institute receives financial aid both, from the Central as well as the State Governments. The college aims at providing the most modern and recent education to its students and hence continuously keeps on updating its syllabus and also trains its faculties according to the new curriculum introduced.
