CPU

CPU is the *Central Processing Unit*.

It is the *Brain* of computer which stores data, therefore it is a *Storage device*.

Input Devices

Computer cannot understand our language, it understands only machine language.

Input device is a hardware which converts our language in machine language, so it works as a translator.

We enter data and instructions through input devices.

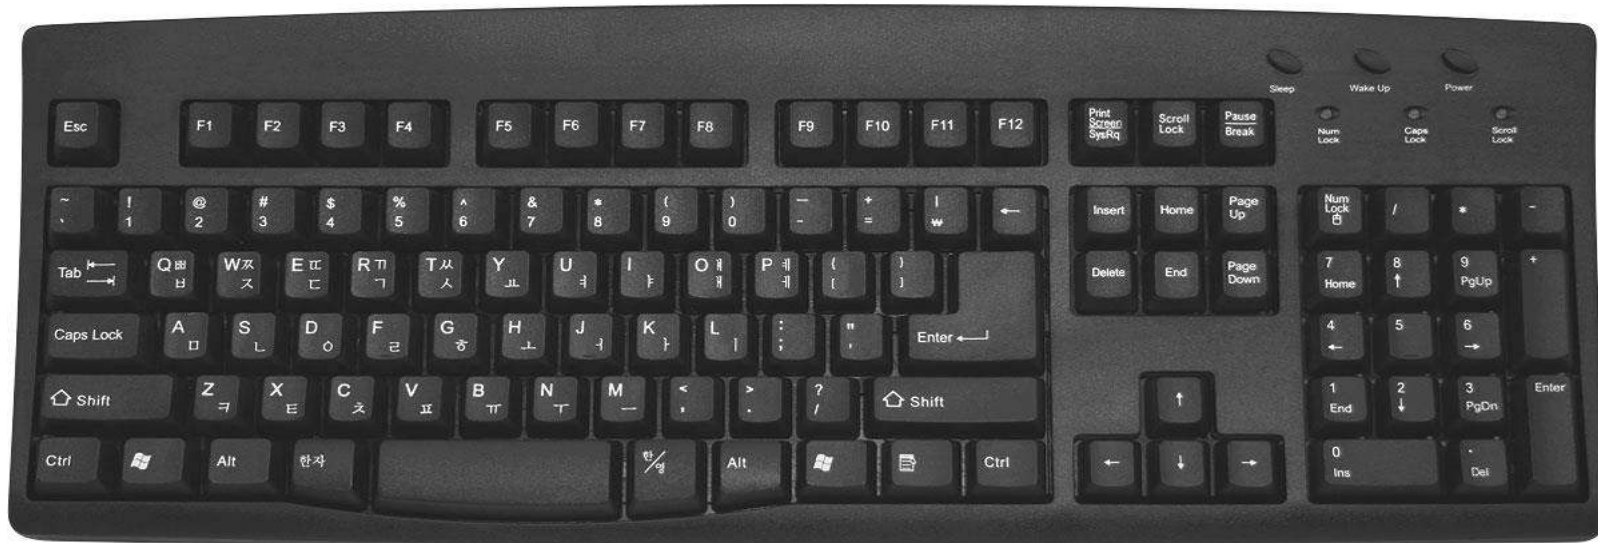

Some of them are:

https://www.youtube.com/watch?v=6ZaBhuE_XEQ

1) Keyboard

2) Mouse

https://www.youtube.com/watch?v=6zaBhuE_XEQ

3) Scanner

4) Webcam

https://www.youtube.com/watch?v=6ZaBhuE_XEQ

5) Joystick

6) Digital Camera

https://www.youtube.com/watch?v=6ZaBhuE_XEQ

7) Touch pads

8) Pen inputs

https://www.youtube.com/watch?v=6ZaBhuE_XEQ

9) *Microphone*
